PROFILE

Land Surveyor and GIS Specialist with over five years of experience in cadastral surveying, land administration, and geospatial analysis across Kenya. Skilled in RTK/GNSS field surveys, boundary and subdivision surveys, sectional property surveys, and GIS-based site suitability analysis. Proven track record supporting land transactions, urban planning, and development projects through reliable field data collection, geodatabase design, and spatial decision-support. Contributor to Humanitarian OpenStreetMap.

EXPERIENCE

Land Surveyor & GIS Analyst - Property Boutique (EA) Ltd

Aug 2024 – Current

- Conduct comprehensive due diligence surveys for land transactions, including boundary verification, encumbrance checks, and site inspections.
- Perform GIS-based site suitability mapping incorporating drainage patterns, sewer reticulation, infrastructure access, and environmental constraints.
- Provide technical advisory to purchasers, developers, and legal teams on land status, risks, and development potential.
- Undertake sectional property surveys, including unit definition, unit factor computation, and preparation of sectional plans.
- Execute cadastral surveys for subdivision, re-establishment, and title documentation.
- Support development control processes, including change of user, extension of lease, subdivision, and amalgamation applications.
- Conduct feasibility studies for industrial developments, integrating spatial analysis, infrastructure considerations, and regulatory requirements.
- Integrate survey and planning data into GIS platforms for reporting, visualization, and decision support.

Land Surveyor & GIS Analyst - Cremona Group

Jan 2024 – Aug 2024

- Managed RTK GPS operations and mobile mapping workflows for field data acquisition.
- Processed, analyzed, and integrated spatial datasets into GIS platforms for planning and reporting.
- Produced cadastral and boundary maps supporting dispute resolution, land regularization, and tenure clarification.
- Supported community-based planning initiatives through spatial mapping and data visualization.
- Contributed to Joint Venture (JV) proposals for housing developments by mapping proposed sites and providing feasibility insights.
- Provided spatial inputs to planning teams for land use optimization and infrastructure integration.

Land Survey Intern - Survey of Kenya

Jun 2023 – Jun 2024

- Reviewed and verified cadastral survey files and drawings submitted for approval, ensuring compliance with statutory survey standards.
- Conducted preliminary checks on mutation forms, deed plans, and survey computations for accuracy and completeness.
- Participated in regularization processes of informal settlements, supporting data verification, boundary structuring, and documentation.
- Assisted in data collection for cadastral records and land administration processes.
- Supported digitization and processing of client land records within the Ardhi Sasa platform.
- Collaborated with surveyors and technical staff to resolve discrepancies in submitted survey data.

Land Surveyor & GIS Analyst - Galleyr Investments Ltd

Jan 2023 – Jan 2024

- Created and maintained structured geodatabases.
- Conducted cadastral and utility mapping.
- Performed site suitability and spatial feasibility analyses.
- Produced maps and reports to support land registration and planning approvals.

GIS Analyst - GeoDev (K) Ltd

Jan 2018 – Jan 2021

- Data collection and validation
- Conducted spatial analysis and geospatial modeling to support urban planning, land use planning, and infrastructure development projects.
- Developed, managed, and maintained geospatial databases and spatial data infrastructure (SDI).
- Produced thematic maps, web maps, and spatial visualizations for planners, engineers, and decision-makers.
- Performed data collection, cleaning, validation, and integration from satellite imagery, GPS surveys, and cadastral/government datasets.
- Supported site suitability, zoning, and spatial impact assessments using GIS tools and spatial statistics.
- Conducted network, accessibility, and service-area analysis to evaluate infrastructure and service distribution.
- Provided technical GIS support and training to planning teams and project stakeholders.

CORE PROJECTS

Sectional Titling Projects

- Shaam Apartments - Kileleshwa
- Green Zone Apartments - Kiambu
- Lily Court Apartments - Parklands

GIS Mapping - Seven Towns, Wajir County

- Oversaw the mapping of seven urban centers to support planning and service delivery.
- Developed spatial datasets capturing settlement patterns, infrastructure distribution, and land use.

Kenya Urban Support Program (KUSP) - GIS Team Member (2018–2019)

- Contributed to GIS data preparation, mapping, and analysis for participating urban centers.
- Supported development of spatial outputs used in urban planning and infrastructure prioritization.

Kerugoya–Kutus Town Spatial Plan - GIS Mapping

- Conducted GIS mapping to support preparation of the spatial plan, including land use and infrastructure layers.

Tana River Spatial Plan - Cadastral Design Support (Handampya Area)

- Provided cadastral design support aligned with spatial planning proposals; structured parcel layouts and integrated cadastral data.

Affordable Housing Planning - Baringo County

- Conducted site suitability analysis using GIS-based thematic mapping, including infrastructure availability, water access, flood risk, drainage patterns, and sewer reticulation.
- Applied spatial analysis to identify optimal development zones and support planning decisions for sustainable housing.

EDUCATION

Bachelor of Technology, Land Survey Technology - Technical University of Kenya

September 2014 – December 2019

Certificate, Transforming Maps to Stories & Data to Decisions - RCMRD

August 2026

Certificate, Geospatial Data Science with Python - Udemy

February 2026 – July 2026

Certificate, R Programming - RCMRD Institute

SKILLS

Geographic Information Systems (GIS) • QGIS • ArcGIS • ArcGIS Online (AGOL, Portal) • GIS Database Design & Maintenance • Mobile Data Collection, GPS/GNSS/RTK Surveys • Kobo Toolbox • Cadastral Mapping • Basic Python, Excel • Data Visualization • Project Management • Report Writing • Analytical Skills • Team Building

REFEREES

Joash Mogambi - General Manager, Property Boutique Ltd

+254 733 331 732 • jmogambi@propertyboutique.co.ke

Kelvin Mutiso - Chief Checker, Survey of Kenya

+254 700 205 337 • kevmut678@gmail.com

Simon Kamau Njoroge- Senior Urban Planner/Policy Analyst

+25472178090 • Ksnjoroge.me@gmail.com

Rosetta Kuira Muthoni - Director, GeoDev (K) Ltd
